Subject: FW: Public Diplomacy Docs

It is probably too late to get it in circulation before the SVTS. Let's get a final scrub within L this afternoon, give Will and Pierre one last look if they want it, and get it up and out of the building. We will report that we are ready to circulate a clean version and those who have not yet commented can do so in that final round.

Does that sound good to you, Ron.

JoAnn -

The attached reflects the revisions we discussed with Ed earlier today. I've not had a chance to look at the rest of the package. If this needs to go out before your SVTS, please go ahead and send and I'll catch up to the package when it comes back around.

Josh
